

## The Swim School

### Safety Precautions in Response to COVID-19:

1. We will operate with 10 or less participants per group for the time being.
2. Please limit the number of adult family members accompanying each swim participant as much as possible.
3. Please bring and use your own personal outdoor folding chairs (camp/sports/beach) and/or blankets for seating purposes if you plan to stay on the pool deck and observe.
4. Please practice social distancing and keep at least 6ft. apart while entering and exiting the pool area, sitting on the pool deck, etc.
5. The playground will remain closed for now. (We have a fun outdoor scavenger hunt and fitness activity available for waiting siblings who might be enticed by the playground and upset that it is closed).
6. Hand sanitizer will be available throughout the pool area.
7. The locker rooms are available for use but we encourage as minimal use as possible.
8. River Wilderness staff will be routinely sanitizing the fitness center and locker room door knobs, handles, etc.
9. The Swim School staff will be distancing swim participants at least 6 ft apart as much as possible while also taking into consideration water safety needs for the beginner swimmers.
10. Please stay home if someone in the immediate family becomes ill.
